Adjustable Shelves

Each Slide-Lok cabinet comes with pre-drilled holes for quick and easy adjustment of shelves.

Drawers

Optional drawers and drawer banks available with drawer faces exposed or concealed behind cabinet doors.

Plywood - Not Particle Board

Slide-Lok cabinets feature quality plywood construction to provide a lifetime of service and durability that particle board and plastic cannot deliver.

Dovetail Construction

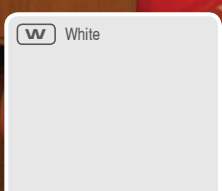

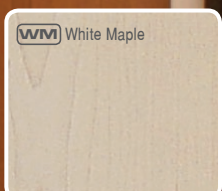

We use our patented dovetail construction to ensure your cabinets assemble smoothly and consistently. The dovetail design also provides superior durability and strength.

A Modular Design

The Slide-Lok Garage Storage System is made up of 11 basic cabinets. Each cabinet is designed to be mixed and matched, allowing you to design your storage solution as wide and high as your storage needs require.

New Options Available

Extruded Aluminum Handles

The Classic Series now features the all new optional full length extruded aluminum handles with a glossy black powder coated finish.

Metal Storage Chest

The Slide-Lok Metal Storage Chest brings it all together. Designed to integrate into your Slide-Lok garage storage system, the locking storage chest features 4 heavy duty swivel casters, a large pull handle and 10 drawers. The overall dimensions of the Metal Storage Chest allows it to be integrated into multiple cabinet configurations, making it the perfect accessory to your Slide-Lok garage.

Don't Forget the Flooring!

Slide-Lok Garage Floors feature excellent color and gloss retention and are available in a wide variety of colors. Slide-Lok Garage Flooring also features a coating that is considered "best in the industry", because it is stronger than epoxy, takes 1 day to apply and will not yellow or fade.
